

Quick Tips for Adding Parties

- Before you get started, have your Complaint available. You will need this to add all parties in this case opening process.
- DO NOT select the browser back button at any time during the 'Add Parties' process. You will lose your entire work product. If you need to make a change to your party selection or simply change the spelling, utilize the icons provided in the participant tree.
- The ultimate goal is to have only one version of a particular name in the system.
- If the party name is already there, DO NOT add them again.

Search

- In the Last/Business Name field, enter the party name, surname or company name only and select Search.
- You can search with a minimum of two letters in the Last/Business Name field followed by an asterisk * for a wildcard to broaden the criteria entered.

Select or Create New Party

- If you find a match from the list, highlight the name from the list and click on the "Select Party" button.
- If no match is found, no name will appear in the Last/Business Name box, and search results will state "Search returned no results. Please try again or create a new party. "
- If you do not find a match, click on the "Create New Party" button.

Initial Caps: Only capitalize the first letter of a name or business unless the name is actually all capitals.
