

# New Mobile Federal Courthouse and John Campbell Courthouse Renovation

## Town Hall Bulletin

Issue No. 40

June 2019

### FINISHES ARE FORMING

From L to R: chair rail, crown molding, and door casings, restroom countertop, finish painting

**SUMMER** is just beginning and the Campbell building is buzzing with activity inside and out, and the finish trades people are putting their stamp on the project. Casework cabinets showed up on site this month and some of the millwork items like trim were installed. Bathrooms saw countertops, fixtures, and toilet partitions installation occurring and painters are making the courthouse a more colorful place.

**EXTERIOR PROGRESS:** Work on the new wheelchair ramps adjacent to the main entrance that began at the tail end of last month continued this month with the forming and pouring of the footings and walls of the sloped sections. The contractor will be rebuilding the main entrance steps and in June removed the stone treads and risers that had been in place and under foot for the last 80 years.
