FRESHENING UP THE FIRST FLOOR FOYER

(Left) Scraping old ceiling paint, (right) a new coat of paint on the ceiling

CONSTRUCTION activities have made it down to the first floor and progress can be seen in a number of ways. In the entry foyer and main lobby the terrazzo floor was refinished in December, wall stone cleaned and ceilings repainted. Much of the old paint on the ceilings was cracked and peeling. Workers scrapped the old paint off and repainted the ceilings creating a fresh new look in these spaces.

OTHER PROGRESS: Roofing was nearing completion on the main roof. The government punchlist of level 3 occurred in December. Flooring was installed in the courtrooms on level 2 and terrazzo installed on level 1. The sidewalk outside the building was demoed and repoured on St. Joseph street. On St. Louis street the sidewalk and former employee's entrance ramp were demoed and new curbs poured. Landscaping and planting began on St. Joseph Street.
